

### Core Question 1: Is the educational program a success?

The Academic Performance Framework, outlined in Core Question 1, gauges the academic success of schools in serving their target populations and closing the achievement gap in Indianapolis. Core Question 1 consists of seven indicators designed to measure schools on how well their students perform and grow on standardized testing measures, attendance, and school-specific measures.

1.1. Is the school's academic performance meeting state expectations, as measured by Indiana's accountability system?							
Indicator Targets	Does not meet standard		School has received a 'D' or 'F' for the most recent school year OR has received a 'D' for the last two consecutive years.				
	Approaching standard		School has received a 'C' for the most recent school year.				
	Meets standard		School has received a 'B' for the most recent school year.				
	Exceeds standard		School has received an 'A' for the most recent school year.

The Indiana State Board of Education awarded Indianapolis Metropolitan High School (Indy Met) a **D** for its 2014-15 school year performance. A school receives its final letter grade by earning proficiency points in both English/Language Arts and Math, and receiving a combination of bonus and penalty points based on improvement in proficiency between 8<sup>th</sup> and 10<sup>th</sup> grade. High Schools also receive points based on graduation rate, and college and career readiness of graduates. For detailed information about how the Indiana Department of Education calculates A-F letter grades, click [here](#).

In Spring 2015, the 10<sup>th</sup> grade cohort at Indy Met had a proficiency rate of 17.1% on the English 10 End of Course Assessment (ECA), and received a penalty due to its 8<sup>th</sup> grade to 10<sup>th</sup> grade improvement rate and a bonus for 10<sup>th</sup> grade to graduation improvement.

Indy Met's 10<sup>th</sup> grade cohort had a proficiency rate of 25.7% on the Algebra I ECA and received a penalty for its improvement rate from 8<sup>th</sup> to 10<sup>th</sup> grade. The school received no bonus for 10<sup>th</sup> grade to graduation improvement.

Since the IDOE provides an extended timeline for students to complete graduation requirements, data for graduation and college & career readiness is calculated a year in arrears. In the 2013-14 school year, Indianapolis Metropolitan High School had a four-year graduation rate of 52.2%, with 36.7% of those graduates qualifying as "college and/or career ready".

On January 26, 2016, the State Board of Education voted to adopt Indiana's recently signed Hold Harmless law. The law was approved in response to the state's adoption of a new ISTEP+ assessment in 2015 and the sharp drop in assessment scores that schools experienced. It enables schools to compare their grades from the 2013-2014 and 2014-2015 school years and to keep the better of the two. Since Indy Met received a **D** in both years, that is its final grade for the 2014-2015 school year. Thus, the school receives a **Does Not Meet Standard** on the Office of Education Innovation (OEI) performance framework.

1.2. Are students making substantial and adequate gains over time, as measured by the Indiana Growth Model							
<b>Indicator Targets</b>	<i>Only applicable to schools serving students in any one of, or combination of, grades 4-8.</i>						
	Does not meet standard	Results from the Indiana Growth Model indicate that less than 60.0% of students are making sufficient and adequate gains ('typical' or 'high' growth).					
	Approaching standard	Results from the Indiana Growth Model indicate that 60.0-69.9% of students are making sufficient and adequate gains ('typical' or 'high' growth).					
	Meets standard	Results from the Indiana Growth Model indicate that 70.0-79.9% of students are making sufficient and adequate gains ('typical' or 'high' growth).					
	Exceeds standard	Results from the Indiana Growth Model indicate that at least 80.0% of students are making sufficient and adequate gains ('typical' or 'high' growth).					
<b>School Rating</b>	<b>Year 8</b>	<b>Year 9</b>	<b>Year 10</b>	<b>Year 11</b>	<b>Year 12</b>	<b>Year 13</b>	<b>Year 14</b>

	Indicator 1.2 does not apply to high school grades.						

The Indiana Growth Model does not currently include growth measures for high school assessments. Therefore, high schools do not receive a rating on this indicator in the OEI performance framework.

1.3. Is the school preparing students to graduate from high school on time, and preparing those students who have not graduated on time to graduate within 5 years, as measured by Indiana's cohort graduation rate?							
<b>Indicator Targets</b>	Does not meet standard	School's 4-year graduation rate is below 70.0% and the school demonstrated less than a 5.0 percentage point increase from its 4-year to 5-year graduation rate.					
	Approaching standard	School's 4-year graduation rate is 70.0-79.9%, or the school demonstrated greater than or equal to a 5.0 percentage point increase from its 4-year to 5-year graduation rate.					
	Meets standard	School's 4-year graduation rate is 80.0-89.9%, or the school demonstrated greater than or equal to a 10.0 percentage point increase from its 4-year to 5-year graduation rate.					
	Exceeds standard	School's 4-year graduation rate is at least 90.0%, or the school demonstrated greater than or equal to a 15.0 percentage point increase from its 4-year to 5-year graduation rate.

The Indiana Department of Education (IDOE) places all Indiana students into a cohort by the student's first date of enrollment in high school. By placing each student in a cohort, IDOE can measure school's four-, five- and six-year graduation rates. For more information on how graduation rates are calculated in Indiana, click [here](#).

IDOE considers all students who have completed graduation requirements by October 1<sup>st</sup> of their cohort's graduation year as four-year graduates. Because of this extension, graduation rates are measured a year in arrears for accountability purposes in order to capture those students who graduate after the end of the school year in May.

For the 2014-15 school year, OEI assesses Indianapolis Metropolitan High School by reviewing the results of 2014 graduation. The school's 2014 four-year graduation rate was 52.2%. The school's 2013 cohort had a 64.0% 4-year graduation rate and increased to 76.6% for its 5-year graduation rate for a 12.6% increase.

From this data, the school earns a **Meets Standard** for this indicator on the OEI performance framework.

1.4. Is the school providing an equitable education for students of all races and socioeconomic backgrounds?							
Indicator Targets	Does not meet standard		School has more than 15% difference in the percentage of students passing standraized assessments amongst races and socioeconomic statuses.				
	Approaching standard		School has no more than 15% difference in the percentage of students passing standraized assessments amongst races and socioeconomic statuses.				
	Meets standard		School has no more than 10% difference in the percentage of students passing standraized assessments amongst races and socioeconomic statuses.				
	Exceeds standard		School has more than 5% difference in the percentage of students passing standraized assessments amongst races and socioeconomic statuses.

Each year, the Indiana Department of Education reports student results disaggregated by race/ethnicity groups and socioeconomic status.

In 2014-15, 11.8% of all Indy Met students 10<sup>th</sup> grade were proficient on both the English 10 and Algebra I ECAs. However, OEI was unable to report comparisons between subgroups due to a largely homogenous student population. The performance of students who qualify for free/reduced lunch compared to that of all students can be seen in the graphs above.

In order to examine subgroup proficiency, a school must have at least 30 students enrolled in more than one subgroup in its 10<sup>th</sup> grade cohort. Because Indianapolis Metropolitan High School did not enroll 30 students in more than one subgroup, the school was **not evaluated** on this indicator.

1.5. Is the school's attendance rate strong?							
<b>Indicator Targets</b>	Does not meet standard		School's attendance rate is less than 95.0%.				
	Meets standard		School's attendance rate is great than or equal to 95.0%.

Starting at the age of 7, students in Indiana are required to attend school regularly. Habitual truancy is defined by the Indiana Department of Education as 10 or more days absent from school, meaning students are required to attend school for 95% of the 180 days in the school year.

Indianapolis Metropolitan High School has an aggregate attendance rate of 78.3%, and all grade levels fell below the 95% standard. Due to its aggregate rate, Indianapolis Metropolitan High School receives a **Does Not Meet Standard** on the OEI performance framework.

1.6. Is the school preparing students for college and careers?							
Indicator Targets	Does not meet standard		Less than 30.0% of graduates meet at least one of the following: 1) received a '3' or better on an AP exam; 2) received a '4' or better on an IB exam; 3) received transcribed post-secondary credit from an approved course; or 4) received an industry certification from an approved list.				
	Approaching standard		30.0 - 39.9% of graduates meet at least one of the following: 1) received a '3' or better on an AP exam; 2) received a '4' or better on an IB exam; 3) received transcribed post-secondary credit from an approved course; or 4) received an industry certification from an approved list.				
	Meets standard		40.0 - 49.9% of graduates meet at least one of the following: 1) received a '3' or better on an AP exam; 2) received a '4' or better on an IB exam; 3) received transcribed post-secondary credit from an approved course; or 4) received an industry certification from an approved list.				
	Exceeds standard		At least 50.0% of graduates meet at least one of the following: 1) received a '3' or better on an AP exam; 2) received a '4' or better on an IB exam; 3) received transcribed post-secondary credit from an approved course; or 4) received an industry certification from an approved list.

The Indiana State Board of Education has established criteria for determining whether or not a high school graduate has not only met graduation requirements, but is also college- or career-ready. In order to be deemed college- or career-ready, a student must pass an AP or IB exam, earn dual credit from an approved list of courses, or receive an industry certification from an approved list.

Of Indianapolis Metropolitan High School's 2013 graduates, 36.7% were deemed college- or career-ready by the Indiana Department of Education. Due to this rate, Indianapolis Metropolitan High School earns an **Approaching Standard** on this indicator in the OEI performance framework.

1.7. Is the school meeting its school-specific educational goals?							
Indicator Targets	Does not meet standard		School does not meet standard on either school-specific educational goal.				
	Approaching standard		School is 1) approaching standard on one school-specific educational goal, while not meeting standard on the second goal, 2) approaching standard on both school-specific educational goals, or 3) meeting standard on one school-specific educational goal, while approaching standard on the second goal.				
	Meets standard		School is 1) meet standard on both school-specific educational goals, or 2) meeting standard on one school-specific educational goal while exceeding standard on the second goal.				
	Exceeds standard		School is exceeding standard on both school-specific educational goals.

	On average, Indy Met students will demonstrate 75% mastery or higher on weekly, standards-based assessments.					75%	MS
	On average, 80% of Indy Met students will earn 10 credits or more during the academic year.					72%	AS

Each year, Mayor-sponsored charter schools set two educational goals that are aligned to or support the school's unique mission. All data for school-specific goals is self-reported by the individual school.

In 2014-15, Indianapolis Metropolitan High School set its first goal around mastery on weekly assessments. The school reported 75% mastery on assessments, earning the school a **meets standard** on its first goal.

Indianapolis Metropolitan High School set its second goal around student completion 10 credit hours during the school year. The school reported that 72% of students completed the requirements for this goal, earning the school an **approaching standard** on its second goal.

#### School Mission Statement

We believe that all students should have the opportunity to pursue education beyond high school. We aim to empower students to take charge of their learning, to gain the skills and knowledge necessary to achieve success beyond high school and to become lifelong learners.

Overall, Indianapolis Metropolitan High School receives an **Approaching Standard** on the OEI performance framework for this indicator.
